

56KG 8 Curved Glass Vacuum Lifter (Model: B0087)

- Tough ABS Plastic Handle 203 mm (8") Vacuum Lifter for Curved Glass.
- Can Be Re-Pumped without Losing Remaining Vacuum.
- Moulded Plastic Carrying Case.
- Pump-Up Vacuum Lifters for Curved Glass are designed to make the carrying and lifting of large architectural curved glass sheets, windscreens (windshields), and thin flexible materials such as 1/16" (2 mm) sheet metals safe and easy.
- Vacuum attachment to flat, non-porous surfaces is achieved in a few seconds by depressing the pump's plunger until it stays well within the handle, beyond the red-line safety indicator.
