

Invisible Shield Surface Protection 20 Ltr (Model: N0028A)

- A high-performance transparent polymer coating that bonds to glass, porcelain & ceramics, and imparts a remarkable degree of functional water, soil and stain repellancy to minimize the interfacial contact between the surface and its environmental contaminants.
- The invisible polymeric barrier formed by its unique properties restores clarity, improves appearance and reduces surface friction for less cleaning and easier maintenance.
- Combines exceptional multi-surface versatility with single-product convenience.
- It is ready to use and requires no mixing or dilution.
- The coating is optically clear, non-distorting, non-reflective.
- It will not peel, crack or discolor.

Attributes:

Product Code: N0028A

Unit Of Sale: 20 Ltr
