

Nedo Messtronic Easy 5Mtr Electronic Measuring Device (Model: C0028)

- This is an easy-to-use electronic measuring tool for the skilled tradesman.
- Simply place the messtronic in position, pull out the extending sections and read off the measurement from the digital display.
- The zero function allows to set reference points for relative measurements.
- Deviations from the reference points are calculated automatically.
- The hold button permits the measured value to be retained in the display. In this way, a measurement can be taken in an inaccessible place and then be read off at a more convenient time.
- The two models cover all typical measuring tasks entailed in building operations.
