

Soft Close For Pocket Doors - Max 60kg Door ( Model: K.PD.42552 )

- This is an innovative soft closing system that allows the door and glass to close gradually and silently. It slows down the travel of the door in the last section of closing, avoiding hazardous situations. It is entirely incorporated into the track and is tested in two versions: one for a door weight of up to 30 kg and one for a door weight of up to 60 kg.

- It can be installed on the entire compatible Gold range, including on existing solutions.

- Installable on glass doors for Gold Base and Essential.
- Usable for every type of wooden door.
- Tested in two versions: 30 kg and 60 kg.
- For installation on the track.
