

Dow Corning 895 Black Structural Glazing (Model: NDC895BL)

DOWSIL™ 895 Structural Glazing Sealant

Designed specifically for the structural bonding of glass, metal and other building components.

- Excellent adhesion to a wide range of substrates
- Odourless and non-corrosive cure system
- One-component product
- Resistant to ozone and temperature extremes

Colours

Black

Pack Size

310ml 'e' Cartridges, 600ml 'e' Sausages (Black only)

DOWSIL™ 895 Structural Glazing Sealant is a one-part neutral curing silicone sealant designed specifically for the structural bonding of glass, metal, and other building components.

- Meets European standards for structural glazing application, as developed by EOTA
- Excellent adhesion to a wide range of substrates including coated, enameled and reflective glasses and polyester coated aluminum profiles and stainless steel profiles
- Odorless and non-corrosive cure system
- One-component product
- Resistant to ozone
- Excellent stability through wide range of temperatures: -50 °C to 150 °C
- The cured product exhibits excellent weathering characteristics, and a high resistance to ultra-violet radiation heat and humidity
- High tensile strength makes it ideally suited for structural bonding applications
- Colour- Black
