

Rotary Vent-A-Matic SXL (Model: M0017)

The Vent-A-Matic is a durable and effective in-glass ventilator that can solve most ventilation requirements. The SXL Rotary Vent is equipped with a diffusing rotor which helps to prevent severe drought and improve fresh air distribution within the room. The rotor also continues to operate whilst under its own inertia, even when air pressure on each side has been equalised.

- The SXL model is most commonly used in larger rooms, offices, hospitals and commercial buildings.

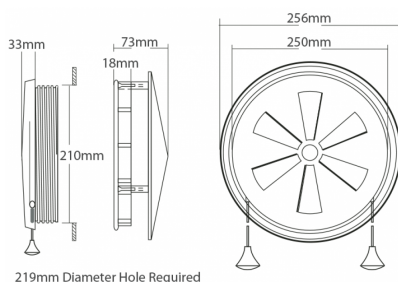

- Requiring a 219mm diameter hole.

- It can be fitted to 4mm or 6mm single glazing, without the need to reglaze.

- Useful when no opening is available or where leaving an open window has safety/security implications.

- Provided with radial shutter control operated by a pull cord.

- Designed for simple two part fitting into a glass aperture.
