

Universal UV Bonding Adhesive 'Black' MV760 (Model: R0029A)

- It has high strength and is highly resistant to vibration, thus making it ideal for glass/metal as well as glass/glass bonding.
- It features outstanding optical clarity and durable resistance to yellowing.
- mentioning.

• Its high resistance to moisture is particularly worth

- \bullet Verifix MV 760 is mainly used for glass constructions subject to high static or dynamic forces.
- Its high elongation at break compensates for the expansion of different bonded materials without loss of adhesion.
